4 July, 2017

Dear Parents / Guardian,

P3 Service Learning- The Recyclers

In line with the school's Service Learning Vision – "Nurturing a Generous Generation", and the school's core values of responsibility, respect and charity, our Primary 3 pupils will embark on a Service Learning Project. We would like to spread the message that through their participation in Service Learning, they are a generous generation.

Our Primary 3 pupils will be embarking on a service learning project of collecting old newspapers for recycling. They will also be involved in spreading the message of recycling to their fellow Primary 2 Temasekians. The purpose of this initiative is to inculcate in our pupils the habit of recycling and to encourage them to contribute their part towards saving the environment.

We request for your strong support as the proceedings from the collection of the old newspapers from this service learning project will go a long way to help the underprivileged living among us.

We will start the collection of old newspapers from 10 July to 18 July.

We look forward to your support in this community service project.

Yours sincerely,

Ms O Guat Bee
Year Head (P5 & P6)
