22 February 2018

Through: The Principal

Dear Parents/Guardian,

Electricity Kit for Primary 5 students

The Electricity Kit is a basic hands-on kit that introduces students to electrical components and construction of electric circuits. It consists of 5 wires with crocodile clips, 2 bulbs, 1 switch and 2 bulb holders.

In addition, students will be able to make use of the Electricity Kit to construct various circuits and explore the different arrangements of bulbs within the circuit.

The cost of the Electricity Kit is \$3.50. Please make the payment via cash to your child/ward's Science teacher by **Monday, 26 February 2018**. Please note that the cost of the Electricity Kit is non-refundable. For students under Financial Assistance Scheme (FAS), the school will be fully subsidizing the purchase of the Electricity Kit for your child/ward.

Thank you.

Yours sincerely,

Mdm Connie Soon
HOD/Science
