Issue No. 3/2016

Our Vision

We aspire to be the Vibrant Learning Campus where pupils learn, lead, serve and grow to become future-ready citizens rooted in values.

FROM THE EDITOR'S DESK...

We hope you have had an enjoyable National Day holiday with your family members. Term 3 promises to be an exciting term for our pupils as they continue to learn, lead, serve and grow through the many exciting activities lined up for the term.

ANNOUNCEMENT

We would like to welcome the following teachers to Temasek Primary School:

Mr Marcus Lau

Miss Janane Elangkovan

Mr Gary Ng

HIGHLIGHTS OF TERM 2 & KEY ACTIVITIES

Our Family Matters coordinator Mrs Marilyn Kang, who is also a member of the PCC, together with Mrs Monica Phua organised a meaningful event for our pupils and their fathers. The Temasek Primary Dads for Life event was organized on Friday, 11 March 2016, for 40 Dads and children to S.E.A. Aquarium, RWS, for a specially curated tour of Asia's largest aquarium, home to more than 100,000 marine animals. The mariners gave the Dads and children alike a comprehensive coverage of the characteristics, habitats and even peculiarities of the animals on display. This Dads for Life activity, fully sponsored by Ministry of Social and Family development, hopes to inspire, mobilize and involve fathers to become good influencers in their children's lives for life.

"The Dads for Life event has made me bond even more closely with Rachel. We were talking together and discussing so much. I was trying to answer all her curious questions about the marine creatures we saw. We walked hand in hand throughout the guided tour of 90 minutes. I have never held her hand for such a long time. It was a true bonding session over time and communication. We feel much closer with one another after the trip."

Allan Tan, dad of Rachel Tan (P3D)

Remembering Mr Lee Kuan Yew one year on ...

Through the activities held during the first week of term 2, pupils and staff remembered how our nation had come together, and to reflect on the values that the late Mr Lee Kuan Yew and his generation represented. These values continue to bond us as one people as we work on our future together.

Pupils and staff wrote their names on thick rubber bands and these were used to form a long chain. The chain symbolises how we are all intertwined regardless of race, religion and age and how we need to stay united for the future. Pupils and staff also penned down their reflections on our Founding Prime Minister and attached these reflections onto the long chain that was formed. The lower primary pupils wrote 3 words to describe Mr Lee Kuan Yew while the upper primary pupils wrote on the 3 things they have learnt from Mr Lee Kuan Yew. Pupils also penned poems in remembrance of Mr Lee.

Earth Hour 2016

Earth Hour is a charitable organisation based out of Singapore. It was famously started as a lights-off event in Sydney, Australia in 2007. Since then it has grown to engage more than 172 countries and territories worldwide. Earth Hour 2016 was on 19 March 2016, 8:30 pm.

Temasek Primary School celebrated Earth hour on 24 March 2016. All pupils and staff were encouraged to turn off the lights, fans and air-conditioners to minimise electricity usage and to experience learning in classrooms without electricity. Though the 30 minutes was uncomfortable, pupils understood that this could become a reality if we do not conserve our natural resources. Teachers were also involved conversing with our pupils regarding environmental issues.

Mother Tongue Fortnight Activities by the Malay Language Team

Our Primary 5 and 6 Malay language pupils had a chance to eat Nasi Ambeng together in a 'kenduri' manner. They learned the significance of sharing food with other people while enjoying their tray of Nasi Ambeng. Nasi Ambeng is served on a tray and eaten by 4 to 5 people so as to encourage camaraderie. In the olden days, Nasi Ambeng was served only during special occasions by the rich as they served expensive dishes such as beef rendang and opor chicken in the Nasi Ambeng. Guests who are invited would just have a mouthful of the food and then would bring home the rest of it by equally portioning it with the others who share the tray with them.

Our Primary 1 to 4 pupils learned more about Malay traditional kuih. Our primary 1 and 2 pupils were taught mainly on the different methods of making Malay traditional kuih - boiling, baking, steaming and frying. Our primary 3 and 4 pupils were taught about the use of pandan leaves, coconut leaves and coconut which can be found in numerous Malay traditional kuih. All our primary 1 to 4 pupils had a chance to try the kuih and they were delighted with the delicious kuih!

English Week @ Temasek - 28 March to 1 April 2016

This year, EL Week returned with a bang in Term 2. With the new '3D Book Cover Design' competition being introduced, the winning entries were given air time in the canteen, hanging in the tree to form Temasek's very own 'Tree of Knowledge'. The competitions were the first activities to kick-start the fun-filled week of other various EL activities aimed at exposing pupils to the use of English, recognising the importance of speaking, and communicating in Standard English.

Pupils participated in the various fun and educational activities catered for their levels. With the rostering of classes to play during recess times, they had ample opportunities to play and more pupils were able to complete the activities. They enjoyed the games and activities which was evident in the smiles on their faces as they moved from station to station.

Temasek Resilience Run 2016

As part of the SOAR programme, the PE department held its inaugural Temasek Resilience Run on 8 April 2016 at Bedok Reservoir Park for the P4 to P6 levels. The Resilience Run was held to help bond our pupils and promote the element of healthy living as well as to inculcate the value of resilience in our pupils.

My Garden of Character Project

The school collaborated with the Parent Connection Committee (PCC) in a new project called 'My Garden of Character'. Values and Habits are weaved into this special project. The project is implemented at two stages, firstly at the lower primary class level and eventually at the school-wide level where a plot of land will be set aside for the parents to oversee the planting and gardening activities as well as engage pupils in meaningful activities. Members in the PCC and parent volunteers acted as character and green ambassadors, well attired in green, to conduct the lessons.

Celebrate Earth Day

Earth Day is a movement that hopes to inspire, challenge ideas, ignite passion, and motivate people to action for the environment. In Singapore, aligned to Earth Day, an annual international environmental event on 22 April, Youth for the Environment Day (YED) engaged the youth to champion environmental ownership and to renew their commitment to care for the environment. Pupils in Temasek were encouraged to recycle plastic drinking bottles which they decorated with creative designs. These bottles were then used as pots for plants which will be hung around the school.

International Friendship Day

This year's International Friendship Day (IFD) was commemorated on 8 April 2016 on the same day as our Resilience Run. The theme for this year's IFD was Singapore and ASEAN and hence, the activities and sharing were focused on ASEAN countries.

Every year, before the IFD assembly programmes, our NE Ambassadors will walk into the hall with flags of various countries. This year, during the P1 and P2 assembly, the P1 and P2 form teachers themselves sportingly took part in the flag parade. They looked like they really enjoyed themselves!

During the recess activities carried out over three days from Tuesday to Thursday, our pupils had a chance to see, touch and take photos with the flags. They also learned about ASEAN by looking at exhibits of items from ASEAN as well as the map of ASEAN. The most popular activity was at the drawing and colouring station. Pupils had to draw and colour the flags of two ASEAN countries in order to win a country flag eraser. The activity was so popular that all 600 flag erasers were redeemed! Our PCC members and parent volunteers helped to run the activities during the various recesses.

Drink Water Campaign

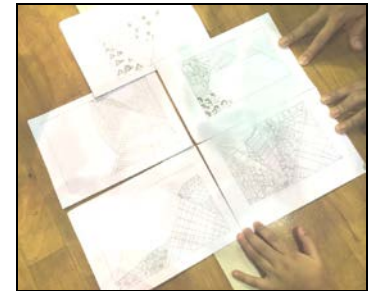

As part of the PE department's effort to raise awareness for healthy living, a collaboration with HPB was formed and they organised a "Drink Water Campaign" for Temasekians. Pupils were treated to a fruit infused water to make drinking plain water more appealing than sugared water. Posters too were on the pillars and on the water coolers to remind pupils to hydrate themselves with lots of water. A photobooth was set up on 22 April where the pupils took photos and they loved it!

Talent Fiesta – Performing & Visual Arts

Temasek's Talent Fiesta (Performing Arts) was held on Wednesday, 13 April and Thursday, 14 April during the morning assembly for our Primary 3 to Primary 6 pupils. Temasek Talent Fiesta is slated to be held twice a year to showcase pupils' talents. It is also a platform for pupils to gain confidence by performing in front of their peers. The fiesta will be a springboard for talented pupils to perform to a wider audience during official school events like Speech Day and Temasek MagicLand. The response was overwhelming, thus there were more participants than performance slots. The participants that had not performed were given opportunities to perform during Temasek MagicLand.

The Aesthetics Committee conducted Talent Fiesta for visual art for the very first time as part of the assembly programme. The objective for such a move is to encourage mass participation among the pupils as well as the staff. The Art of Doodling was introduced. From the 3 sessions conducted for the different levels, pupils were very attentive during the demonstration and fully engaged when they did the hands-on activity. The programme was a great success and positive feedback was given by pupils and staff.

Project Glow & Grow through Stories

Our PCC members and parent volunteers co-partner with the school where they act as character coaches in championing efforts to inculcate and promote the value of kindness and graciousness during the Leaders' Week. Moreover, during the P1/P2 assemblies, they help to promote the 7 Habits through the sharing of stories.

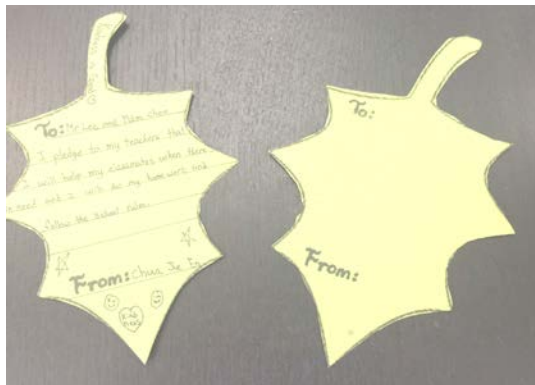

Kindness Week SG (16 May - 20 May)

Kindness Theme: Temasekians, Pass It On!

It was heartening to see our pupils participating enthusiastically in the activities during their respective recesses. We saw our pupils put in their time and effort to make a doodle or bookmark just to pass it on to their loved ones as a gift of appreciation. They also lined up to take up challenges from the Kindness Bucket Challenge! We were especially encouraged to see one of our pupils line up in his crutches to take up a challenge! At the end of kindness week, our students each wrote a pledge of kindness. It was heart-warming to read the pledges which showed indeed that a simple act of kindness can create an endless ripple. We were grateful for the assistance provided by our office staff members, who painstakingly helped to prepare the materials. We are grateful to our parent volunteers for assisting us in the conduct of the activities during the various recesses.

P1 Learning Tapestry: Learning Journey to River Safari

The Primary 1 pupils went on a riverine expedition to the River Safari on 18 May 2016 as part of their Learning Tapestry learning journey. The pupils were led through the wonders of seven major rivers of the world including the Amazon River, the Ganges River and the Yangtze River. The Giant Pandas and the Red Pandas at the Yangtze River were an instant hit with the young children. The Primary Ones showed consideration and respect for the shy bears by speaking in hushed tones and keeping absolutely quiet. The child friendly signboards and cartoon illustrations that dotted the River Safari provided schema and scaffolding for our pupils to glean information about animal adaptation.

P2 Learning Tapestry

Theme: Appreciating Our Cultural Diversity

As part of the Learning Tapestry, our P2 pupils embarked on a learning journey to the National Museum. They enjoyed visiting the various galleries and gained insights about the diverse communities and also learnt to appreciate the many customs and traditions of the communities in Singapore. The colourful and vibrant exhibits definitely made their trip a memorable one.

P6 ECG - Visit to RSAF Open House

With the emphasis on ECG and NE, the Year Head, Miss May O and the P6 teachers decided to engage the P6 cohort of pupils in the special excursion preview of the RSAF Open House on 20 May 2016. The event was held at Paya Lebar Air Base. The theme for the open house is 'Defending Our Skies' which focus on the role of the RSAF in defending our sovereignty. The event provided the learning opportunity for our pupils to be better informed of RSAF's capabilities and operation as well as the different fields of work opportunities available at RSAF. The pupils were excited to share about the aerial displays, aircraft arming demonstration, types of aircrafts, as well as the interactions with the men and women from the RSAF.

Student Awards & Recognition

During Leaders' Week and as part of character development, the Year Heads make a conscious effort of working in collaboration with their level teachers in identifying and recognising pupils who demonstrate school's core values and habits. Some of the awards they have introduced include the Temasek Best Dressed/Attired Individual Pupil in each class, the Best Dressed/Attired Class and recently the P5-P6 Buddy Awards.

Responses by students:

*Jimi Bong (6E) shared that he was surprised to receive the recognition and felt happy being appreciated by a buddy.
"I am glad to hear that I am making a difference to someone's life."*

Desmond Cheong (6C) - "I am thankful that a buddy recognised things I did. I am really surprised to be selected by my classmate."

Temasek in the News

Inspiring Chinese Language Teacher Award

We are proud of our staff, Mrs Sophie Wang, for being conferred the Inspiring Chinese Language Teacher Award. This award is organised by Lianhe Zaobao with co-organisers being the Singapore Middle School Chinese Teachers' Association and the Singapore Chinese Teachers' Union. The Award is endorsed by the Ministry of Education and is sponsored by the Lee Foundation.

This award is given to teachers who are able to arouse students' interest in the Chinese Language and Culture through creative teaching or through co-curricular activities. The awardees would have shown dedication in helping students in their learning, and demonstrated care and concern for, and understanding of their students.

Temasek's Very Own Budding Actress - 'Little Emily'

Our talented P5 pupil, Melissa Hecker, acted in the musical, *Emily*, as the little Emily. A few of our pupils and their family members as well as the Form Teacher, Miss Jill Wong, attended the musical on 21 May 2016. Her classmates with encouragement from Miss Jill Wong, made a special card with words of encouragement and well wishes for her. One of the pupils presented the card and flowers to her after the musical. Melissa was surprised by the act of her classmates. Her mother, too, was touched by the gesture of Melissa's classmates and thanked the pupils and Form Teacher. Melissa's classmates have demonstrated kindness through their kind words and acts.

Achievements

Singapore Youth Festival Art Performance 2016

International Dance

Congratulations to the Dance Club for achieving certificate of **DISTINCTION** in the SYF Central Judging! The dancers had a great experience working together as a team. They coordinated their dance moves effectively and awed the audience with a variety of fantastic dance techniques. They understood that teamwork was of utmost importance in a dance competition. Thus, they synergized and practiced conscientiously since last year. Despite having only 18 dancers for the competition, they were resilient and gave their best. The dancers constantly sought for

self-improvement. They video-recorded the dance steps weekly to practice at home. Many parents also supported their children and many came down to assist with the hair and make-up on the actual day of the competition.

Malay Dance

Congratulations to our Malay Dance team for achieving the **Certificate of Accomplishment** in the SYF central judging! The students had an enriching experience in the 'Journey', while preparing for SYF. They learnt to synergize and work as a team to achieve a common goal. Regardless of all the challenges that they had faced, they put up a brave front to do their very best. Their parents, too gave them a lot of support. Mdm Khairiah expressed that on the day of performance, she was really touched to see the overwhelming support given to the dancers by their parents and family members.

Guitar Ensemble

Congratulations to our Guitar Ensemble for achieving the **Certificate of Accomplishment** in the SYF central judging! Our guitarists took their audience on an enthralling musical journey as they fascinated them with a fast-paced whimsical piece, *Plink Plank Plunk* followed by a slow 'boat ride' to an Indonesian folk song, *Dayung Sampan*. Despite being one of the smallest guitar ensembles to participate in this year's SYF AP, our guitarists learnt how to synergize through active listening and created wonderful harmony together.

Choir

Congratulations to our choir for achieving the **Certificate of Accomplishment** in the SYF central judging! Our choir sang a total of three songs; 'Gruss', a romantic German song by Mendelssohn, 'Voices in The Round' which is our SYF set piece and 'The Pirate King', a lively song from a comic opera called 'The Pirate of Penance' by Gilbert and Sullivan. Preparation for SYF 2016 started early this year. In January, our singers began practising conscientiously to memorise the lyrics of each piece and singing according to their voice parts. It was indeed an uphill task for our

members to memorise the lyrics and to sing in German. Our members persevered as they knew their goal. They began with the end in mind and tried their utmost best to do well in this year's SYF.

Other Achievements

RoboCup Singapore Open 2016

Nineteen of our Primary 4 and 5 Robotics Club members took part in the RoboCup Singapore Open 2016 competition from 31 March to 2 April 2016. Our pupils took part in four different leagues - the CoSpace Rescue, CoSpace Rescue (Novice), CoSpace Grand Prix Challenge and the Make Code Challenge. We are proud to announce that our pupils managed to clinch two awards - first place in the CoSpace Grand Prix Primary category and first place in the RoboCup Junior CoSpace Rescue (Novice) Primary category.

We are integrating technology into the curriculum especially in the field of robotics to develop future ready individuals through applicative learning experiences such as our school's RMA involvement in designing a Cospace package on the Diversity of Materials with Singapore Polytechnic team led by Dr Zhou and Ms Shen Jiayao for our P4 pupils this year. We are also in the midst of developing our 2nd package and are looking forward to its implementation. With this, Temasek Primary School aspires to be a vibrant robotics learning centre where we hope to develop pupils into passionate, creative, as well as critical thinkers through the continuous integration of robotics into the curriculum.

Singapore Amazing Flying Machine Competition 2016

During the March holidays, 10 of our pupils participated in the Singapore Amazing Flying Machine Competition. According to Mr Lim Wu Yi the competition was the largest flying machine competition in Singapore. Our pupils created paper planes to achieve the longest, farthest and most accurate flight possible. They were awarded the Certificate of Excellence for their effort and enthusiasm.

PUA XIN HUI CHERYL	6E	BRONZE

Lee Xuan Wei of 6D has done the school proud when he clinched numerous awards in mathematics. Xuan Wei started learning abacus at the age of 6 and grew attached to numbers. Although he is passionate when it comes to numbers, he also enjoys reading and playing chess. He enjoys swimming and going to the gym with his mother to keep fit. Some of the awards that he had achieved so far:

Year	Competition:	Awards:
2016	SINGAPORE MATHEMATIC OLYMPIAD FOR PRIMARY SCHOOLS organised by Hwa Chong Institution (High School)	Platinum
2016	Raffles Institution Primary Mathematics World Contest (Open Category)	High Distinction
2015	Annual Mathlympics For All Singapore Primary Schools	Gold - 1st East Zone
2015	12th International Mathematics and Science Olympiad for Primary School (IMSO)	Silver in Mathematics
2015	National Mathematical Olympiad of Singapore - (NMOS)	Gold
2015	Singapore and Asian Schools Math Olympiad (SASMO)	Silver
2015	11th International Mathematics Contest (Singapore)	Silver
2015	Abacus and Mental Arithmetic Progress Award organised by Marine Terrace Haven Residents' Committee	Gold (Primary 5)

CCA Achievements

Our heartiest congratulations to all our pupils who were involved in the recently completed inter-school competitions. It wasn't an easy journey for many of our pupils as they had to juggle with their school work and the vigorous training to prepare themselves for the competition. Their achievement is certainly commendable and as a school, we are all very proud of their efforts.
