18 February 2020

Through: The Principal

Dear Parents/Guardians,

Code For Fun Programme for Primary Four students

We would like to inform that from 2020, Primary Four students in Temasek Primary School will be going through a 10-hour programme called Code for Fun. This programme is jointly conducted by the Ministry of Education (MOE) and the Infocomm Media Development Authority (IMDA).

The purpose of the programme is to provide students with opportunities to learn computational thinking and coding concepts. They will also be introduced to the basics of Artificial Intelligence (A.I.).

This programme will take place during curriculum time and the schedule is as follows:

Dates	Class
18 – 19 February	4 Integrity
20 – 21 February	4 Responsibility
25 – 26 February	4 Perseverance
27 – 28 February	4 Open-mindedness
3 – 4 March	4 Respect
5 – 6 March	4 Humility

At the end of the programme, the students will demonstrate their learning by programming their Sphero Bolt robot to accomplish challenges provided to them. This is where the students will work as a team and create workable solutions together.

We look forward to your child/ ward's active participation during this programme.

Yours sincerely,

Mr Choon Guoxiang Ernest

Head of Department/ Information and Communications Technology
